### PROFESSIONAL SUMMARY

---

Full-Stack Engineer with 13+ years of experience building scalable, high-performance web applications using PHP (Laravel), Node.js, React.js, and Vue.js. AWS Certified Cloud Practitioner with hands-on experience in EC2, S3, and CI/CD pipelines. Strong track record in leading teams, rapid prototyping, and delivering production-ready solutions under tight deadlines.

- Extensive experience building and optimizing scalable, high-performance web applications in production environments.
- Proficient in developing **RESTful APIs** and integrating third-party services such as **payment gateways**, SMS, and email.
- **Expert in database design and optimization**, with hands-on experience in **MySQL**, **PostgreSQL**, **MongoDB**, and **Firebase**, leading to more efficient queries and improved application performance.
- Built a proof-of-concept Node.js microservice integrating **RabbitMQ** for asynchronous processing of email notifications and data sync jobs.
- Practical experience with **Elasticsearch** and **Kibana** for real-time application monitoring and log analysis
- Proficient in **AWS (EC2, S3)** and a certified **AWS Cloud Practitioner (CLF-C02)**.
- Strong understanding of **SOLID principles**, **OOP concepts**, **microservices architecture**, and **Software Design Patterns** to architect **maintainable and scalable full-stack applications**.
- Experienced in **Agile methodologies**, **SCRUM**, and modern development workflows including **CI/CD pipelines**, **TDD**, and **unit testing**.
- **Demonstrated leadership in mentoring junior developers and managing both front-end and back-end teams to maintain code quality and meet deadlines.**

### TECHNICAL SKILLS

---

- **Languages:** JavaScript, PHP, TypeScript
- **Backend:** Laravel, Next.js, Node.js, Express.js
- **Front-end:** React.js, Next.js, Vue.js, HTML5, CSS3, Sass, Tailwind, Bootstrap, Redux, npm
- **Database:** SQL, MySQL, MongoDB, DB2, PostgreSQL, Firebase, Redis, ORMs
- **DevOps/Cloud:** AWS (EC2, S3), Docker, GitLab CI, GitHub Actions, Apache
- **Testing tools:** Mocha, Chai, Cypress, PHPUnit
- **Tools:** Git, Postman, VSCode, JIRA, Confluence, Trello
- **OS:** Linux, Windows
- **Authentication:** OAuth, JWT
- **Monitoring & Logging:** Elasticsearch, Kibana

### EXPERIENCE

---

#### Senior Full Stack Engineer, Independent Contractor – Remote (Confidential Client Europe-based) – (March 2025 – Present)

- Providing full-stack development support for a confidential client under a strict NDA agreement. Working on complex web applications using a hybrid technology stack.

- Responsible for developing new modules, optimizing performance, and integrating backend services.
- Engaging in troubleshooting, bug fixing, and system improvements to ensure reliability and scalability.
- Collaborating remotely with international stakeholders using Agile development practices.

**Senior Full Stack Engineer - Betasquirrel Innovation Labs Pvt. Ltd, UAE( March 2024 –February 2025)**

- Developed and contributed to the CRM system, improving customer management functionalities and workflow automation.
- Enhanced overall application performance by refactoring code and optimizing database queries.
- Implemented DevOps best practices, streamlining CI/CD pipelines and automating deployments using AWS services such as EC2, S3, and RDS for scalable infrastructure.

**Technologies & Tools:** NodeJs, Express.js, MongoDB, ReactJS, HTML5, CSS, MySQL.

**Senior Software Engineer - Mideast Data Systems, UAE (Aug 2023 - Jan 2024)**

- Engineered a high-speed single-page web app using React.Js, Laravel, and NextJS, significantly cutting page load times
- Improved overall application performance through strategic code refactoring and database query enhancements. Effectively addressed security threats in the current application, implementing robust measures to strengthen overall system security.

**Technologies & Tools:** Next.js, NodeJs, Laravel, ReactJS, Bootstrap, HTML5, CSS, MySQL.

**Senior Software Engineer - IPStudios, UAE (Nov 2022 - Aug 2023)**

- Revitalized an existing web project by migrating it from an obsolete CMS to Laravel and React.js, ensuring maintainable, modular, and well-structured code for easier long-term development and scalability.
- Integrated OAuth and Social Account Authentication for secure and streamlined user login, improving overall user experience.
- Pioneered a NodeJS and React-based Proof of Concept (POC) for HR Management System, delivering a 15% improvement in process efficiency.

**Technologies & Tools:** Laravel, NextJS, React.js, CouchCMS, jQuery, Bootstrap, HTML5, CSS, MySQL

**Senior Software Engineer - Sacoor Brothers, UAE (Nov 2021 - Feb 2022)**

- Collaborated on the development of the Stock Replenishment Module, fostering teamwork and providing peer guidance to enhance overall project efficiency
- Automated the sending of marketing emails and SMS, increasing company revenue by 15%

**Technologies & Tools:** PHP, Laravel, MySQL

**Senior Software Engineer- Krews Ltd, Abu Dhabi, UAE(Dec 2019 - Sep 2021)**

- Architected B2B and B2C web projects for a startup using Laravel, including database design and performance tuning to ensure scalability and system reliability.
- Collaborated on building a B2C online ticket booking system integrated with B2B services, improving overall functionality and user experience.
- Implemented best coding practices to optimize system performance and enhance code maintainability.

**Website:**[qportal.io](http://qportal.io)

**Technologies & Tools:** Laravel, React, Lumen, NodeJs, MySQL, and Firebase.

**Lead Software Engineer - Contracting Plus India Pvt Ltd, India (Aug 2017 – Sep 2019)**

- Designed and developed new features that improved user experience and increased company revenue by attracting 30% more clients to file tax returns through the company portal.
- Led code reviews and provided coaching on Laravel best practices, ensuring code quality, consistency, and fostering the growth of junior developers in the team.

**Website:** [taxreturnsplus.com](https://taxreturnsplus.com)

**Technologies & Tools:** Laravel, MySQL, Core PHP

**Technical Lead - National Informatics Center (NIC), India (Oct 2013 – Aug 2017)**

- Led the development of a Fintech system for the Kerala Government Treasury, managing financial transactions for over 500,000 employees.
- Optimized database architecture with DB2, improving salary processing speed by 80%.

**Website:** [tsbonline.kerala.gov.in](https://tsbonline.kerala.gov.in)

**Technologies & Tools:** Laravel, CodeIgniter, Symfony, Android, Core Java, MySQL

## EDUCATION

---

**Master of Computer Application(MCA)- College of Engineering Trivandrum**

## CERTIFICATIONS

---

- **AWS Certified Cloud Practitioner** – Amazon Web Services (AWS)
